#### ABOUT ME

---

I am currently studying Fashion Design in my final year of Bachelor at Central Saint Martins, London GB. Besides, I am a trained Bespoke Tailor and Pattern Maker. During my period of education at a fashion design atelier in Germany, I managed to perform well under pressure and to deliver work at high-standards dealing with different kind of challenges.

Over the past years, I was able to gain a lot of different know-how through various work opportunities. I am very passionate about my job, as of ever-changing challenges, which I enjoy mastering with a great deal of enthusiasm and persistency.

---
